CUB Committee Meeting  
Date: October 7, 2016

Members Present: Logan Wein (Chair), Marsha Bonn, Kristina Carey, Sara Sermarini

Business:

- Marsha Bonn is the current Interim Director and Associate Director for the University Union and Student Affairs. They are looking for applicants to apply for these positions.
- The CUB is now five years old, so we want to make sure that the building stays up to date and looking new. If anyone ever finds the slightest damage throughout the CUB, please report it to the information desk or Marsha directly.
- Marsha would like me to point out that the game systems in the Red Zone downstairs are getting old, so they may need to replace them in the near future.
- Mold testing was just done and the tests came back negative, so that’s good!
- As many of you may have noticed, there have been water bottle stations and charging stations placed throughout the CUB, so they are excited about that. About 4,000 water bottles have been saved this semester so far.
- The CUB is concerned about the strike, but they would like me to inform everyone that it will remain open regardless of the faculties decision to strike. Student workers within the CUB will be required to come back to work, and activities such as the concert and homecoming will take place.
- Within the coming months, Student Government will be receiving an award that the CUB has won. It is called the Leed Certification Award, and the CUB is silver certified. This means that many things throughout the CUB are environmentally friendly, such as the recycled carpets, white paint, and many other aspects of the CUB. They are not gold certified because we do not have a “green” roof.
